

COLLEGE OF ENGINEERING

There were 1354 beginning freshmen enrolled in the College of Engineering in the Fall of 2001: 1123 males and 231 females. Of these students, 1108 had both HSPR and ACTC. The persistence rates for the latter group are described in the table below. Each cell represents the number of students in the cell with that particular combination of HSPR and ACTC. The percentage in that cell represents the percent of students who were enrolled as of the tenth day of Fall 2002.
