Professional/Graduate Students by Geographic Origin .....	86

### NEW STUDENT CHARACTERISTICS

Freshmen in Top Ten Percent of High School Class.....	92
Freshmen with ACT:C of 27 or Higher.....	93
Freshmen by Illinois County of Origin.....	97
Transfers by Illinois Sending Community College.....	98
Freshmen by Geographic Origin .....	99
Professional/Graduate Students by Geographic Origin .....	99

### ACADEMIC PERFORMANCE

One-Year Retention of Freshmen by College .....	102
Retention Patterns.....	105
Retention of New Transfers .....	107

### DEGREES CONFERRED

Change by Level.....	110
Change in Bachelor's Degrees by College.....	111

## EXPLANATORY NOTES FOR RETENTION AND GRADUATION

---

*Graduation and retention rates are the result of many variables including academic performance, academic preparation, motivation, and academic integration. Other factors which seem to influence graduation and retention include part/full-time attendance, student age, family responsibilities, commuter/resident attendance, first-generation college attendance, socioeconomic status, employment, and indebtedness. The extent to which these factors combine and contribute to graduation and retention is not fully understood, but there is a considerable body of research documenting the complexities of the issue.*

*Throughout recent history the graduation rate of students in the United States who enter a university as beginning freshmen and work toward bachelor's degrees from that same university four to six years later is approximately 50 percent. A freshman class with higher than average ability, motivation, preparation, and greater full-time attendance, etc., will graduate at higher rates than that average. The reverse is also true.*

*However, there are no hard and fast prediction models. The intervening variables are numerous and interrelated. For example, high motivation certainly can overcome under-preparedness just as low motivation can negate high ability. Similarly, better academic preparation may be the result of high academic ability, or it may be the consequence of higher socioeconomic status, and thus a more positive high school environment.*

*It is tempting to compare institution-wide graduation rates among universities without accounting for the makeup of the student body. The reader is cautioned not to make blanket comparisons, for example, in the graduation and retention rates provided in this Data Book for the University of Illinois campuses. The student bodies of the campuses are different, and thus comparisons among the three would parallel the proverbial apples-to-oranges relationship.*

*One other caveat should be emphasized: Retention data presented in this and in previous Data Books were gathered from several different studies, each employing a slightly different methodology. The footnotes section of each table describes the definitions used for that table.*

---

# Campus Enrollments

## UIUC

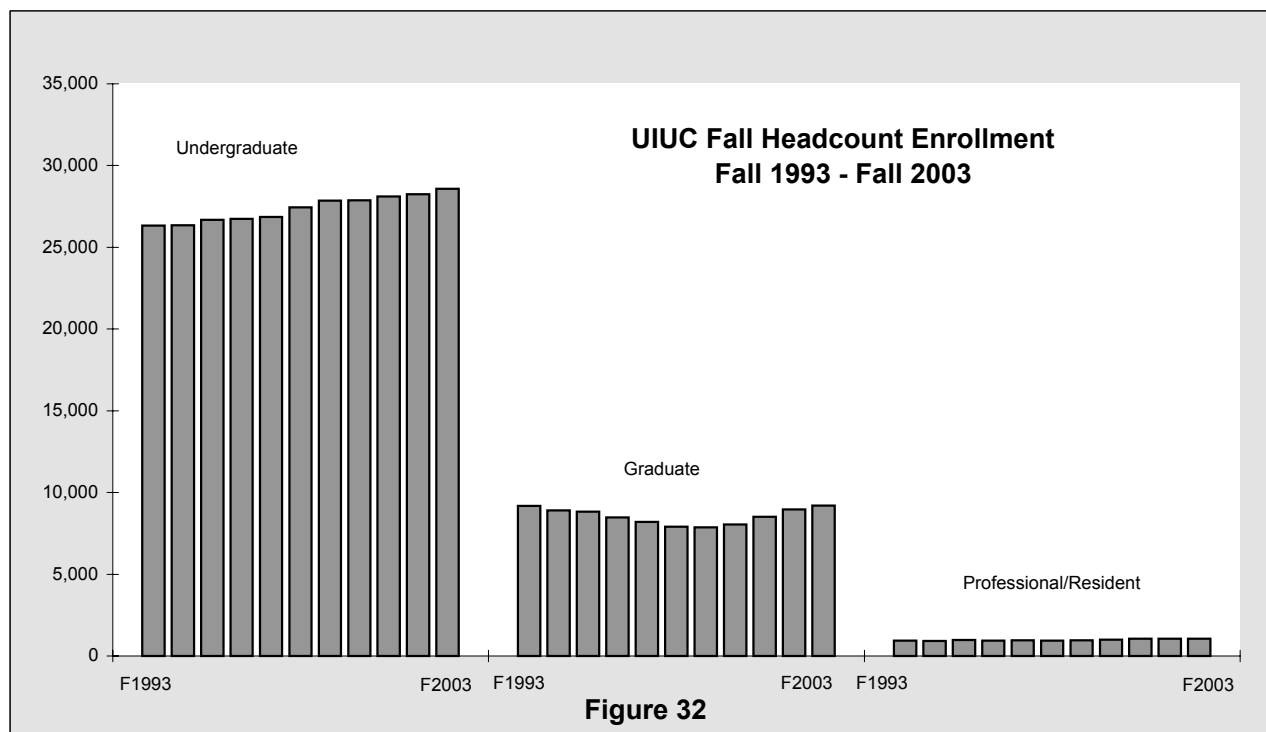

---

### **HIGHLIGHTS**

- *This fall, total enrollment at Urbana reached 38,864, the highest point in the decade. Undergraduate enrollment has risen steadily over the last ten years; undergraduates total 28,589, 346 more than last fall. Graduate enrollment fell slowly during the 1990s after reaching a peak of over 9,000 students in 1993, but has been climbing since 2000; graduate students now number 9,210, a new high point. Professional student enrollment has been fairly steady over the decade. This year's enrollment of 1,065 students is slightly higher than last year's, and 135 students greater than enrollment ten years ago. See Table 43 and Figure 32.*
- *New freshmen numbers rose sharply this year after two years of moderate increases. This year's new freshmen class of 6,811 is a new high. In comparison, recent new freshmen classes range from a low of 5,696 in 1993 to the previous high of 6,479 in 1999. See Table 44 and Figure 33.*
- *Table 45 and Figure 34 show that fall 2003 undergraduate enrollment is higher in most colleges than it was ten years ago. Table 46 displays fall 2003 graduate enrollment by college, level, and gender. The College of Liberal Arts and Sciences continues to enroll the highest numbers of students at both the undergraduate and graduate levels.*
- *Figures 35-37 and Table 47 illustrate trends in enrollment by gender. Males continue to outnumber females in the undergraduate and graduate populations; however, these gender gaps are smaller than they were ten years ago. Since the early nineties, Urbana has enrolled more female than male professional students, a gap that has continued to widen.*
- *In 2003, Black and Hispanic students represented 11.9 percent of all students —13.9 percent of undergraduates, 6.0 percent of graduate students, and 10.2 percent of professional students. Each is an increase over last year's representations. See Tables 48-49 and Figures 38-40.*
- *With nearly 20 percent minority students, Liberal Arts and Sciences is the most diverse college. Table 50 also shows that the College of Law enrolls a diverse student body with 15 percent minority students.*
- *Table 51 and the maps in Figure 41 illustrate geographical origin. In-state students moved from 92.3 percent of all undergraduates in 1993 to 87.9 percent in fall 2003.*

**Percent Change in UIUC Undergraduate Enrollment by College Fall 1993 and Fall 2003**

**Figure 34**

<sup>1</sup> In 1995, the College of Agriculture changed to the College of Agriculture, Consumer and Environmental Sciences.

<sup>2</sup> As of 1997 the School of Social Work no longer accepts undergraduates.

<sup>3</sup> As of 1997, students in secondary education enroll in the teaching option in LAS and minor in secondary education. In addition, admission to the elementary and early childhood curricula is limited to students earning 60 hours or more.

<sup>4</sup> In 2003, the College of Commerce and Business Administration (CBA) changed to the College of Business (BUS).

# New Student Characteristics

## UIUC

---

### **HIGHLIGHTS**

- *At 6,811, the 2003 freshman class is the largest of the past ten years. It is larger than last year's class by 445 students. See Table 52.*
- *Beginning freshman enrollment in 2003 compared to ten years ago is higher in most colleges. The largest college, Liberal Arts and Sciences, enrolled over 300 more new freshmen this fall than last, and 33 percent more than ten years ago. The second largest college, Engineering, enrolled 124 more new freshmen than last year; at slightly less than 2001's unusually high number, the incoming Engineering freshman class is the second largest in the ten-year period. See Table 52.*
- *Table 53 and 53.1 show that 2003 new transfer enrollments are similar to those of the past several years, but lower than the new transfer enrollment rates of 1993 and 1994.*
- *UIUC continues to attract top high school graduates, as illustrated in Tables 54 and 55. As the last two years, the mean high school percentile rank for new freshmen in 2003 was over 87.0 after several years below that level. The mean ACT composite score of the 2003 freshman class is 27.6, higher than any other year in the period and more than seven points above the state average. Over 94 percent of freshmen in the College of Engineering and 83 percent in the College of Business bring an ACT:C score of 27 or higher. Also see Figures 42 and 43.*
- *Tables 56-58 present selected demographics of the fall 1998 and 2003 new students. Geographic characteristics such as origin, residency, and transfer institution are mapped in Figures 44-46. Cook County (2,407) and the five collar counties of the Chicago metropolitan area (1,916) provide the largest number of beginning freshmen to UIUC; however, several downstate counties—Champaign (188); McLean (87); Sangamon (87); Peoria (93; and Madison and St. Clair (160 combined)—also are large feeder counties. Nine counties did not send students to UIUC. Parkland College (214) and the College of DuPage (52) send the largest numbers of transfer students to UIUC.*

<sup>1</sup> In 1995, the College of Agriculture changed to the College of Agriculture, Consumer and Environmental Sciences.

<sup>2</sup> As of 1997, students in secondary education enroll in the teaching option in LAS and minor in secondary education. In addition, admission to the elementary and early childhood curricula is limited to students earning 60 hours or more.

<sup>3</sup> In 2003, the College of Commerce and Business Administration (CBA) changed to the College of Business (BUS).

<sup>1</sup> In 1995, the College of Agriculture changed to the College of Agriculture, Consumer and Environmental Sciences.

<sup>2</sup> As of 1997, students in secondary education enroll in the teaching option in LAS and minor in secondary education. In addition, admission to the elementary and early childhood curricula is limited to students earning 60 hours or more.

<sup>3</sup> As of 1995, The School of Social Work no longer accepts undergraduates.

<sup>4</sup> In 2003, the College of Commerce and Business Administration (CBA) changed to the College of Business (BUS).

# Academic Performance

## UIUC

---

### **HIGHLIGHTS**

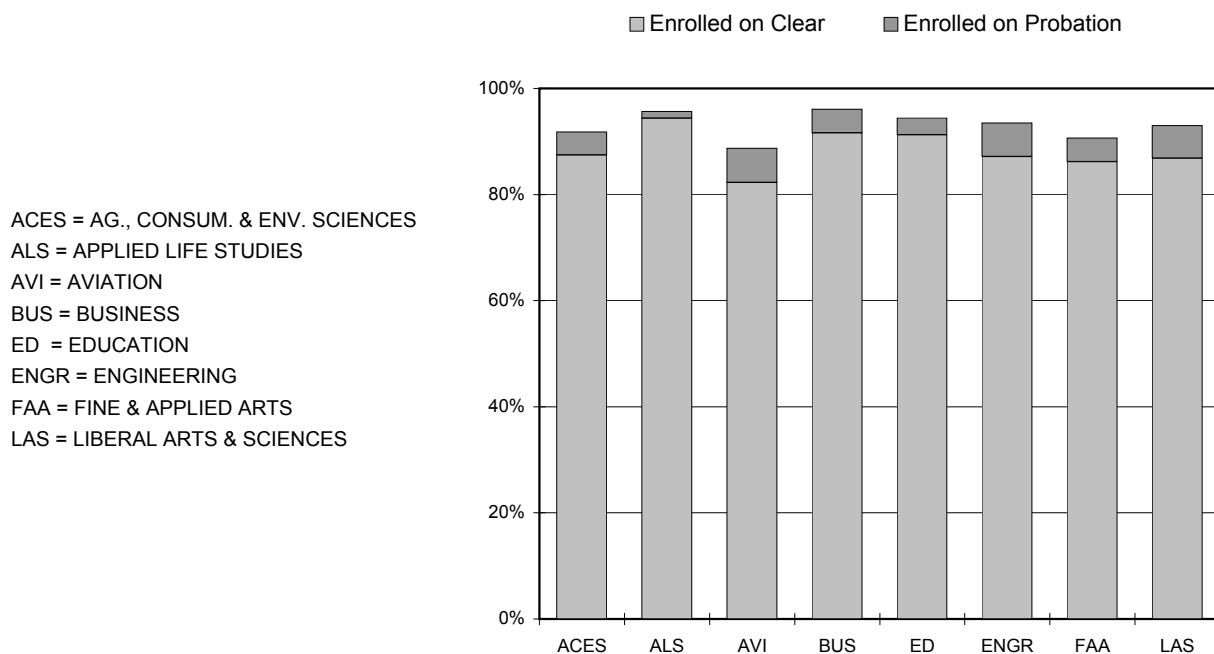

- *One-year retention rates by college are reported in Table 59 and Figure 47. Overall, 93 percent of the freshman class is still enrolled on clear or probationary status at the end of the first year.*
- *Table 60 tracks the mean grade point averages for the 1987 transfers from community colleges and four-year institutions for six semesters after transfer. The community college transfers dropped over one-half of a grade point the first semester, but the group average improved in the succeeding terms.*
- *Graduation and retention patterns are reported in Tables 61-62 and Figure 48 for beginning freshmen. The graduation rate after seven years is over 80 percent. The seven-year graduation rate for the 1996 cohort is higher than that of any of the five immediately previous cohorts. The five-year trend has been moving higher for several years, and, at just over 78 percent, is higher for the most recent cohort (1998) than for any other group which entered during the nineties. The percentage graduated in five years for the 1998 cohort exceeds the seven year graduation rate for some earlier cohorts.*
- *Table 62 demonstrates that women succeed at a higher rate than men and on average men are enrolled longer than women. For the cohort that started in 1998, women graduated at 81 percent five years after matriculation, compared to a rate of less than 76 percent for men. However, over 3 percent of men were still enrolled compared to 0.3 percent of women.*
- *For transfers, the graduation rate after four years for the fall 1991 cohort is almost 70 percent including about 1 percent still enrolled. See Table 63.*

**Table 60**

**UIUC COMMUNITY COLLEGE AND FOUR-YEAR COLLEGE TRANSFER STUDENT  
PERFORMANCE AS MEASURED BY CUMULATIVE GRADE POINT AVERAGES  
FALL 1987 COHORT**

	Number in Cohort	Transfer GPA	GPA At End Of Term					
			1	2	3	4	5	6
Two-Year Transfers	741	3.26	2.72	2.83	2.86	2.97	2.92	2.76
Four-Year Transfers	466	3.15	2.86	2.98	3.01	3.08	2.99	3.03

Reported above are enrollments and mean cumulative grade point averages for the fall 1987 cohort of new transfers to UIUC. This cohort was tracked for three years after transfer.

In fall 1987, 741 students from community colleges transferred to UIUC entering with a mean cumulative GPA of 3.26. After one semester, the mean GPA for this cohort dropped to 2.72. At the end of four semesters, or two years after transfer, the mean GPA for this cohort had increased to 2.97.

In fall 1987, 466 students from four-year colleges and universities transferred to UIUC, entering with a mean cumulative GPA of 3.15. At the end of one semester, this cohort's mean GPA dropped to 2.86, a smaller decrease than experienced by the community college cohort. At the end of four semesters, or two years after transfer, the mean GPA for this cohort increased to 3.08.

1999		92.0	86.1	84.0			PERCENT
2000		92.0	86.5				RETENTION
2001		91.2					

Fall beginning freshmen include full-time freshmen entering in the summer preceding the fall term. The percentages in column "Year Two," and so on, reflect the percentage of students enrolled but not graduated during the second year, the cumulative percentage of degrees conferred through that year, and the retention for the second year -- the sum of enrolled and graduated students. These data might incur rounding error. The data used in the table are taken from the statistics used to compile the AAUDE Retention and Graduation Survey.

Year-to-year retention for the 1996 cohort is displayed in Figure 48 on the next page. Of those freshmen who entered UIUC in fall 1996, less than one-half percent were still enrolled and over 80 percent had graduated after seven years, to yield a retention rate of 80.8 percent.

1993		75.8	69.9		
1994		78.4			
					<b>PERCENT RETENTION</b>

Fall new transfers include full-time transfers entering in the fall term. Summer degrees are counted with the previous spring. The percentages in column "Year Two," and so on, reflect the percentage of students enrolled (those who did not graduate and did not drop out) during the second year and the cumulative percentage of degrees conferred through the second year. Retention for the second year is the sum of enrolled and graduated students. These data might incur rounding errors.

**UIUC New Transfers  
Retention Patterns for 1990 Total Cohort**

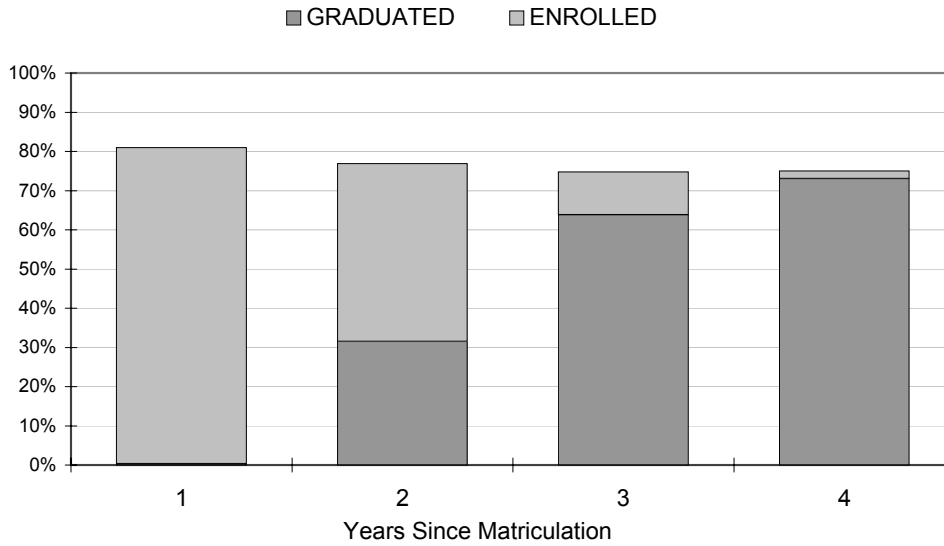

Figure 49

**UIUC New Transfers  
Retention Patterns for 1990 Major Feeder Cohort<sup>1</sup>**

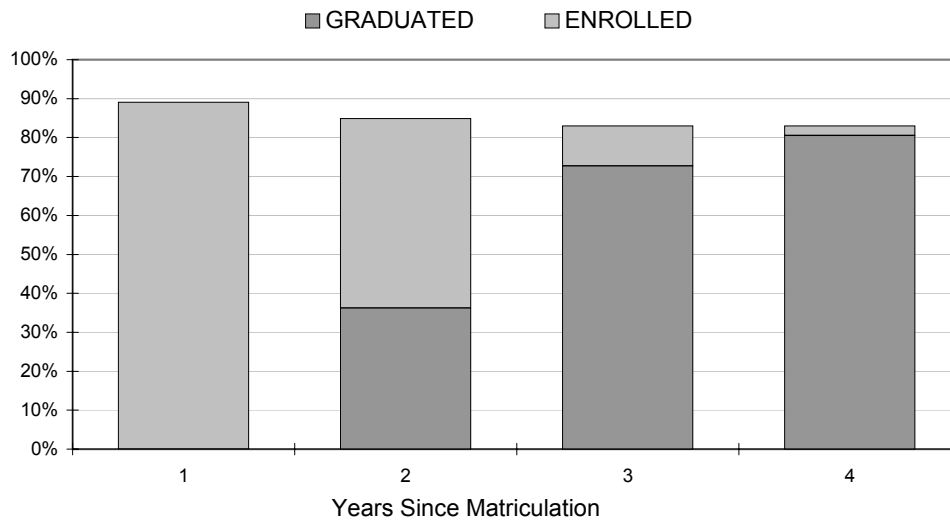

Figure 50

<sup>1</sup> Major Feeder Cohort includes new transfers from Parkland, Illinois Central, DuPage, Moraine Valley, and Wm. R. Harper. The transfers from these schools comprise slightly less than one quarter of all new transfers.

# Degrees Conferred

## UIUC

---

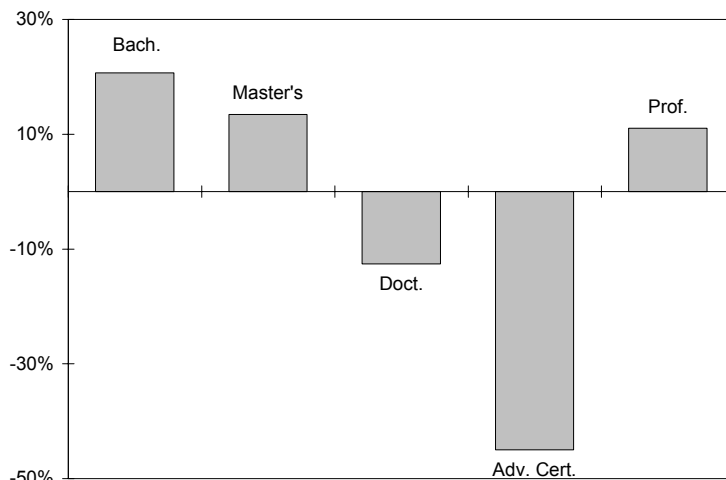

### HIGHLIGHTS

- *In FY 2003, the campus conferred 10,628 total degrees, an increase of over 500 from last year, and a new ten-year high. With an increase of over 250 from last year, the 6,978 bachelor's degrees awarded in FY 2003 is the highest in the ten-year period. Master's were awarded to at least 200 more students in FY 2003 compared to any of the previous ten years. The number of doctoral degrees granted has declined compared to ten years ago, while the number of professional degrees is higher than a decade earlier, second only to the number awarded last year. See Table 64 and Figure 51.*
- *As presented in Table 65 and Figure 52, most colleges awarded slightly or moderately larger numbers of undergraduate degrees in FY 2003 compared to ten years earlier. Exceptions include the College of Applied Life Studies that granted 220 more bachelor's degrees than in FY 1993, an increase of nearly 150 percent. The College of Agriculture, Consumer and Environmental Sciences also was up in FY 2003—by 10 degrees over last year and 201 compared to ten years ago. Most colleges show increases compared to last year as well as to a decade ago.*
- *The percentage of undergraduate degrees earned by females has increased over the decade. For several years, about 45 percent of undergraduate degrees went to female students. Six years ago the rate increased to 46 percent, and three years ago it went to 47 percent. This year 49 percent of undergraduate degrees were awarded to females. See Table 66.*
- *Tables 67 and 67.1 report undergraduate degrees conferred by race/ethnicity. The percentage distribution of undergraduate degrees conferred to underrepresented students has increased over the last ten years. The proportion of degrees conferred to minorities (Black and Hispanic students combined) moved up from 8.6 percent of total bachelor's degrees ten years ago to 10.5 percent in FY 2003.*
- *For the second year, data are presented showing the number of degrees conferred by level and race/ethnic category with international students displayed in a separate category (See Table 68). In FY 2003, minority students received 10.5 percent of bachelor's degrees, 5 percent of Master's degrees, almost 6 percent of doctoral degrees, and 12 percent of professional degrees.*

**Percentage Change in UIUC Undergraduate Degrees Conferred by College<sup>4</sup>  
FY 1993 and FY 2003**

**Figure 52**

<sup>1</sup> In 1999, the Institute of Aviation received approval of a baccalaureate program in Aviation Human Factors.  
<sup>2</sup> In 1995, the College of Agriculture changed to the College of Agriculture, Consumer and Environmental Sciences.  
<sup>3</sup> In order to meet changes in state requirements for teacher certification in 1992, students either accelerated studies or delayed graduation. This pattern affected the number of graduates for FY 1992 and FY 1993.  
<sup>4</sup> The School of Social Work no longer grants a baccalaureate degree.  
<sup>5</sup> In 2003, the College of Commerce and Business Administration (CBA) changed to the College of Business (BUS).
