Characteristics of New Transfer Students¹
University of Illinois at Urbana-Champaign
Fall 2004

Purpose

The purpose of this study is to report enrollment and characteristics of new transfer students² to the University of Illinois at Urbana-Champaign (UIUC) for the 2004 fall term. The study provides data for use by community college counselors and advisors, faculty members, and administrators in determining the mobility of their students. It also provides data for UIUC officers involved in recruitment, admissions, and instructional services.

Summary of Results

1. A total of 952 new transfer students enrolled for fall 2004, down slightly from recent years — numbers from fall 1999 to fall 2003 were highly consistent ranging from 1,061 to 1,087.

Just over 60 percent of transfers (591) who entered UIUC in the fall 2004 term last attended an Illinois public community college.

2. The top feeder institutions and the respective number of transfers to UIUC for fall 2004 were:

Parkland College	207
College of DuPage	45
W. R. Harper	32
Illinois Central	30
U I – Chicago	27
Joliet	22
Black Hawk	21
Illinois State University	20

The top two community colleges have been the same for falls 1991-2004. The University of Illinois at Chicago has been the major four-year institution feeder every year since 1997 except 2001.

3. In 2004, 2 of 5 transfers entered the College of Liberal Arts and Sciences; just over 1 in 5 enrolled in the College of Engineering. The following Colleges, listed highest to lowest, each enrolled between 11 and 6 percent of transfers: Business (11 percent); Agriculture, Consumer & Environmental Sciences (9 percent); Fine and Applied Arts (8 percent); and

² New transfers (including University of Illinois inter-campus transfers) are defined as undergraduate students who did not earn credit previously at UIUC. These data may differ from other reports.

Applied Life Studies (6 percent).

4. Transfers were predominantly male (61 percent) and 20-21 years of age (63 percent).
5. Just over two-thirds of all transfers reported their racial/ethnic category as white. Approximately 11 percent were Asian/Pacific Islanders, 9 percent were International, 4 percent were Latino/a, and 3 percent were African-American students.
6. By policy, junior and senior transfers made up almost all transfers. Though some students technically are categorized as sophomores (19 percent), most lack just a few hours of junior class standing.
7. The quality of transfer students as measured by the transfer grade point average remains high. Almost 70 percent entered with a mean grade point average of 3.26 or above for previous college work attempted (4.0 scale).

In summary, personal and academic characteristics of the fall 2004 transfer cohort appear similar to recent cohorts. Transfer and freshman enrollment has been managed carefully, resulting in long-term stability of total new student enrollment in the last five years.

Transfer of credit is vital to the academic careers not only of students admitted as transfers but also UIUC native students. Students choose to enroll and transfer credit from many different institutions, with nearly 40 percent of the student body transferring some credit to UIUC. Articulation services are important to many UIUC students, and the University will continue to support and promote transfer opportunities.
