BACKGROUND INFORMATION CONCERNING TUITION AND FINANCIAL AID

AN UPDATE FOR FY 2009

JANUARY 2008

PREFACE

The original edition of this document was prepared for the Board of Trustees in 1977. Data on tuition, fees, room and board, and estimated total cost of attendance were provided for the University of Illinois, and, in some cases, for other Big Ten institutions or other public or private universities. The original document and all subsequent editions are intended to serve as a reference volume with data on some of the key issues affecting the development of tuition policy without proposing any specific new policy or change in existing policies.

Determining an appropriate share of educational costs which students and their families should bear through tuition and fee charges remains a key policy issue for all universities and State legislative and executive leaders. This present volume of background information has been prepared for Board of Trustees consideration of tuition, fees and housing rates for Fiscal Year 2009. It includes a brief historical review of tuition policies, and it incorporates for reference current Board of Trustees actions on tuition principles and policy issues, along with a summary of Illinois Board of Higher Education student affordability goals. As with earlier editions, the document also includes a variety of historical and comparative data on tuition, fees and room and board charges.

BACKGROUND INFORMATION

AND BASIC DEFINITIONS

BACKGROUND INFORMATION AND BASIC DEFINITIONS

Basic Definitions: Tuition

Stated most simply, tuition is a pricing mechanism through which students (and, often, their families) share in the costs of their educational programs. Within limitations prescribed by the Board of Trustees and/or the Illinois Board of Higher Education (IBHE), tuition may be waived for students:

- ▶ On the basis of scholarship, special talent, or financial need; or
- ▶ In connection with grant or contract activities which include funds to cover costs.

Under present University policy, tuition rates vary:

- ▶ By student level, e.g., undergraduates generally pay less than graduate students. These tuition differentials reflect variations in instructional costs.
- ▶ By residency status, i.e., out-of-state students pay approximately three times the rate for Illinois residents.
- ▶ By academic program, e.g., students enrolled in architecture and the arts, business, engineering, fine and applied arts, health information management, human nutrition, life and chemical sciences, movement sciences, nursing, and science programs in Liberal Arts and Sciences, and selected graduate programs in the Liataud Graduate School of Business, Business Administration, Accountancy, Architecture in Health Design, Biomedical Visualization, Computing and Information Technology, Energy Engineering, Human Resources and Industrial Relations, Law, Library and Information Science, Occupational Therapy, Public Health, Public Administration, Health Care Administration, Public Health, Social Work, and the professional programs in Dentistry, Law, Medicine, Pharmacy, Physical Therapy and Veterinary Medicine pay charges higher than those for other students. Again, these differences generally reflect instructional cost variations.
- ▶ By campus, e.g., undergraduate and graduate students at Urbana-Champaign pay tuition rates greater than those at Chicago and Springfield.

- ▶ By distance education program, this includes a three tiered tuition structure for off-campus students at the Urbana-Champaign campus, a base tuition rate, a higher professional program rate and a variety of program specific rates.
- ▶ E-Tuition, a tuition rate associated with on-line courses and degree programs at the Chicago and Springfield campuses.
- ▶ By Global Camus online degree and certificate programs, offered in partnership with faculty on our University of Illinois campuses. Global Campus will begin to provide quality degree programs during the Spring 2008 term. Tuition rates vary by program and residency status.
- ▶ By entering cohort, beginning no later than the fall semester of 2004, tuition for an Illinois resident undergraduate student will be guaranteed (will not increase) for a period of at least four consecutive years after that student's initial enrollment in a degree program at an Illinois public university. An excerpt of the statute pertaining to the University of Illinois, which was signed into law by Governor Blagojevich in July 2003, is listed on page 5. The University of Illinois Undergraduate Guaranteed Tuition plan and guidelines are located at http://www.vpaa.uillinois.edu/policies/tuition_guarantee.asp.

Basic Definitions: Fee Charges

Generally, student fees are charged for two purposes:

- ▶ Instructional fees are charged for unique instructional requirements which apply only to students in specific programs, e.g., flight fees for aviation students.
- ▶ Non-instructional fees are charged for student-oriented programs, activities and facilities. These fees usually apply to all students. The fee structures at each University of Illinois campus are quite similar, although not identical. Non-instructional fees include:
 - ▶ A service fee, which is composed of categories for salaries, programming, general expenses, and utilities for Auxiliary Service units such as student unions, campus recreation or athletics.
 - ▶ A general fee, which is composed of four fixed and mandatory transfer components: debt service, renewals and replacements (R&R), Campus administrative charges, and general University changes.
 - ▶ A hospital/medical fee, which supports student health services.

- ▶ A student health insurance fee, which is assessed all eligible students unless evidence of comparable health insurance coverage is provided.
- ▶ An Academic Facilities Maintenance Fund Assessment, which addresses the deferred maintenance backlog in academic facilities.
- ▶ An Urbana-Champaign Library Information Technology Fee, which will be used to aid in the transition towards electronic media and digitalization, increase library hours, improve information technology services, strengthen opportunities for research technology and assistance, create and improve the tools for online learning/research, increase the positions focused on direct support of student learning and services, and enhance access to both electronic and print material collections.

In addition to these general categories, each campus has more specialized student fees. For example: students at Urbana-Champaign pay a transportation fee to acquire local bus service and maintain the SafeRides system; Urbana-Champaign students pay an energy technology fee used to purchase cleaner energy technologies; full-time undergraduate and graduate students and students in selected professional programs at Chicago pay a transportation fee to provide an unlimited pass for Chicago Transit Authority buses and elevated trains; and students at Springfield are assessed a recreation center fee and an athletic fee to support intercollegiate athletics. A variety of refundable fees are also assessed at each campus. Students at each campus pay a fee to provide for a student-to-student assistance program. Refundable fees at Urbana-Champaign support cultural programming, the Student Legal Service and registered student organizations, programming at the Krannert Center for the Performing Arts, a Legacy Scholarship fee, and a Sustainable Campus Environment fee.

Basic Definitions: Room and Board Charges

Room and board charges are set at rates sufficient to cover operating costs for the housing divisions at each campus. Normal operational factors such as salaries and wages, utilities, supplies and food stocks, and building maintenance, repair and renovation are included. In addition, the housing divisions cover an array of student programming activities of both an academic and recreational nature.

Establishing Rates and Collecting and Spending Tuition Revenue

The University of Illinois Board of Trustees has the statutory authority to set tuition rates for University of Illinois students and to

collect funds based upon those rates. Beginning in FY 1997, with a change in State Statute, public universities have the authority to retain and expend locally held tuition revenue as well. Prior to FY 1997 institutions were required to deposit tuition revenue in the State Treasury and receive an appropriation before it could be expended. For public universities as a group, tuition revenue represents 45% of the former “appropriated funds” operating budget comprised of State tax funds and tuition revenue. Since State tax funds remain so large a fraction of this total, the General Assembly and the Governor remain active participants in decisions about tuition levels through their ability to control tax appropriations for universities.

State statute also provides that the IBHE advise both the General Assembly and the Governor on budgetary matters for colleges and universities, keeping the IBHE another active participant in the tuition and fee setting process.

Board of Trustees Policy Statements on Tuition

Given the prominence of tuition issues, a section on tuition policy and planning issues was incorporated into the "University of Illinois FY 1992 Budget Request for Operating and Capital Funds," approved by the Board of Trustees on September 13, 1990.

In November 1990 the Board of Trustees reviewed a set of Tuition Principles which were used as the basis for University of Illinois testimony before the Joint Legislative Committee on College Tuition of the Illinois General Assembly. In July 1993 and again in August 1995, the Board convened a retreat to review tuition planning issues and updated a set of guidelines which form the underlying basis of the University's tuition program. Following that Board retreat, the Trustees reviewed a set of Tuition Policy Guidelines, which are reprinted on page 6. As a supplement to this policy in February of 2003 the Board reviewed “Ensuring Quality and Affordability: Tuition and Financial Aid at the University of Illinois” which reviewed affordability issues.

Illinois Board of Higher Education Policies for Tuition and Fees

Affordability for students is a high priority issue as viewed by the IBHE. Student affordability goals were published in the IBHE Master Plan Policies for Illinois Higher Education and are listed on page 7.

STATE OF ILLINOIS UNDERGRADUATE GUARANTEED TUITION PLAN
UNIVERSITY OF ILLINOIS
PA 93-0228

Be it enacted by the People of the State of Illinois,
represented in the General Assembly:

Section 5. The University of Illinois Act is amended by
adding Section 25 as follows:

(110 ILCS 305/25 new)

Sec. 25. Limitation on tuition increase. This Section applies only to those students who first enroll after the 2003-2004 academic year. For 4 continuous academic years following initial enrollment (or for undergraduate programs that require more than 4 years to complete, for the normal time to complete the program, as determined by the University), the tuition charged an undergraduate student who is an Illinois resident shall not exceed the amount that the student was charged at the time he or she first enrolled in the University. However, if the student changes majors during this time period, the tuition charged the student shall equal the amount the student would have been charged had he or she been admitted to the changed major when he or she first enrolled.

Note: The University of Illinois Undergraduate Guaranteed Tuition plan and guidelines are located at http://www.vpaa.uillinois.edu/policies/tuition_guarantee.asp.

TUITION POLICY AND GUIDELINES*

The University of Illinois Board of Trustees upon recommendation by the Administration sets tuition charges to students according to the following considerations:

- ▶ The three campuses of the University of Illinois serve different groups of students, incur different costs and are differently perceived as to a reasonable price for their degrees. Tuition charges will therefore vary among campuses, as may the rate of tuition charge increase in any year.
- ▶ Because student access to the University of Illinois is a high priority, tuition decisions are made in relationship to financial aid policy and resources, with the goal of minimizing financial barriers for all admitted students.
- ▶ Students and families should bear a fair share of their costs of higher education.
- ▶ Insofar as tuition revenue supplements state general funds in support of university programs, tuition charges will respond to variations in state support.
- ▶ Relevant cost and price indices include the CPI, HEPI, Illinois disposable income and tuition charges at peer institutions.
- ▶ Tuition charges are expected to be higher for graduate programs than for undergraduate programs and even higher for first-professional graduate degree programs that are in highly remunerated professions or are very costly to offer.
- ▶ Tuition charges to non-resident students should cover the cost of instruction. At the undergraduate level, this is equated roughly to a 3:1 ratio of non-resident to resident tuition rates. Refinement of cost-of-instruction measures may lead to changes in that ratio, or supersede it. At the graduate level, this ratio may not be applied due to higher resident charges or competitive pressure from peer institutions.

*Reviewed by the Board of Trustees of the University of Illinois in October 1995.

ILLINOIS BOARD OF HIGHER EDUCATION STUDENT AFFORDABILITY GOALS

1. Colleges, universities, and their governing boards, the Board of Higher Education, and other higher education agencies should place high priority on making college affordable in decisions about resource allocations, academic preparation, academic progress, financial aid, tuition and fees, and other areas affecting access and choice.
2. The affordability of a college education depends on institutions' ability to control operational costs as well as students' and families' ability to pay. Institutions should continue and expand efforts to use resources effectively, improve productivity and enhance the quality of educational programs and services.
3. College affordability is inextricably linked to academic preparation and college academic progress. Active cooperation and coordination across educational levels should be undertaken to ensure that students are academically prepared for college and can complete their college educations in an efficient manner.
4. The lack of financial resources should not be a barrier to higher education. State financial aid should be need-based and student-focused, and should recognize the wide variety of student educational goals and the diversity of educational programs and institutions available to students.
5. A college education should be affordable and accessible to all students. In order to maintain the affordability of a college education, students and their families should not be asked to assume a greater share of educational costs than they are now paying. Colleges and universities should make every effort to control increases in tuition and fee rates and other student costs and should establish multi-year plans that identify expected tuition and fee rate objectives.

Data Tables

The remaining sections of this document present a variety of information which is intended to respond to frequently asked questions about the University's tuition and fee charges. Tables are included to show specific tuition, fees and room and board data for the past ten years. A number of institutional comparisons are also provided. State tax support and instructional cost information are presented, along with several detailed displays of financial assistance data.

STUDENT COSTS

STUDENT COSTS

- ▶ Undergraduate general tuition rates at the Urbana-Champaign (UIUC), Chicago (UIC) and Springfield (UIS) campuses approximated the rate of inflation between 1997-98 and 2000-01.
- ▶ On January 18, 2001 the Board of Trustees passed a \$1,000 tuition differential for UIC and UIUC. The differential applied to all students who initially enrolled after May 6, 2001. The differential was phased-in over two years with \$500 being charged in AY 2002 and \$1,000 in AY 2003. The differential became part of the base tuition in AY 2005. Tuition rates for students who enrolled prior to May 6, 2001 were based on inflation and special campus needs.
- ▶ In addition to AY 2004 general tuition increases, non-resident students entering after May 2003 experienced an additional \$2,000 increase in tuition.
- ▶ Beginning with the Fall 2004 term, tuition for Illinois resident undergraduate degree-seeking students are guaranteed for a period of at least four consecutive years after a student's initial enrollment in a degree program. University guidelines for this statutory program are listed at http://www.vpaa.uillinois.edu/policies/tuition_guarantee.asp. The four-year guaranteed general tuition rates for undergraduate students increased by 16% in 2004-05, 9% at UIUC and UIC and 14% at UIS in 2005-06, 9.5% at UIUC and UIC and 22% at UIS in 2006-07, and 9.5% at UIUC and UIC and 14% at UIS in 2007-08.
- ▶ Beginning in 2005-06, UIS implemented a \$125 per semester differential for all new students to support core academic program enhancements. The differential program will be phased-in over four years.
- ▶ The number of undergraduate and graduate programs being assessed differential tuition rates continues to increase. New tuition differential rates were approved at UIC for undergraduate programs in Movement Sciences and Health Information Management and the M.S. in Human Resource Management, the M.S. in Finance and the Doctor of Occupational Therapy in 2006-07. In 2007-08, two new undergraduate departmental differentials were created in the College of Agricultural, Consumer and Environmental Sciences at UIUC that will be phased-in over four years; UIC created new undergraduate and graduate differentials for science programs in the College of Liberal Arts and Sciences, a differential rate for the Liautaud Graduate School of Business, and new differentials for the B.S. in Human Nutrition, the M.S. in Architecture in Health Design, Master of Computing and Information Technology and the Master of Energy Engineering.
- ▶ To further its land-grant mission to expand educational opportunities for the Illinois community the University of Illinois has established The Global Campus (GC). All degree and certificate GC programs are offered online. The programs are created in collaboration with the colleges and academic departments at the University's residential campuses at Urbana-Champaign, Chicago and Springfield. Beginning in the January 2008, the GC through its partnership with UIUC will offer the online Master of Education in Human Resource Education with a concentration in eLearning and through its partnership with UIC will offer the Bachelor of Science in Nursing Completion Program.

- ▶ In addition to the two Global Campus online programs the campuses offer 33 additional online programs, eight at UIUC, six at UIC and nineteen at UIS.
- ▶ Fees provide for partial operating support and for debt service payments for various student auxiliary service entities, exclusive of housing. In 2007-08 UIUC approved a new Library Information Technology Fee (LIT). This fee will be phased-in over four years with 2007-08 rates of \$400 for full-time undergraduate, graduate and Veterinary Medicine students and \$500 for Law students. When the mandatory fees for entering students are compared between 2006-07 and 2007-08, the rates increased by 23.7% at UIUC, 5.2% at UIC and 4.6% at UIS.
- ▶ Residence hall rates tend to change each year to meet inflationary cost increases in goods and services and to support some measure of program development. Typical double room and board rates for AY 2008 increased by 6% at UIUC, 5% at UIC and 3% at UIS.
- ▶ The campus Offices of Student Financial Aid estimate annual full-time undergraduate costs for attending the University in 2007-08 as \$23,150 at UIUC for an entering resident student, \$14,846 at UIC for an entering dependent student living with parents and \$20,783 at UIS for an entering commuter student.

¹Excludes refundable fees.

²Rate shown includes student health insurance and health service fees.

³Rate shown is for undergraduate students; graduate and professional students pay higher health insurance rates.

⁴Academic Facilities Maintenance Fund Assessment which is being phased in over four years beginning with entering students in Fall 2006.

⁵New Library Information Technology fee which is being phased in over four years beginning with entering students in Fall 2007. Law students are assessed \$500.

⁶Medical students are assessed an additional disability insurance fee. From 1997-98 through 2001-02 first and second year students paid \$70.20, third and fourth years \$87.76. Beginning in 2002-03 all students are assessed \$58.20.

⁷Only full-time undergraduate students were assessed the transportation fee (access to Chicago Transit Authority buses and elevated trains) in 2001-02. Beginning in 2002-03 all full-time undergraduate, graduate and professional students enrolled in the PharmD and DPT programs were assessed the transportation fee. The rates for 2005-06 - 2007-08 apply to all full-time students except third and fourth year Medical students.

⁸Includes the UIS Recreation Center fee.

¹Dependent student living with parents (excluding students at the Health Sciences Center).

²Includes costs of textbooks and other school supplies, meals and housing, travel and personal expenses, and refundable fees.

³Rates listed are for students entering after May 2001.

⁴The decrease in Other Costs is primarily due to the institution of a campus transportation fee, \$150 in 2001-02 for full-time undergraduate students. In 2000-01 the transportation fee included in Other Costs was \$792.

⁵Includes the four-year guaranteed base tuition rate.

⁶Includes the Academic Facilities Maintenance Fund Assessment.

⁷Estimated.

¹Tuition rates reflect assessments for 15 credit hours per term.

²Includes costs of textbooks and other school supplies, meals and housing, travel and personal expenses and refundable fees.

³Housing costs were adjusted to reflect a more accurate estimation of off-campus full costs.

⁴Includes the four-year guaranteed tuition rate.

⁵Includes the Academic Facilities Maintenance Fund Assessment.

⁶Estimated transportation expenses were decreased from \$1,850 to \$1,500.

⁷Estimated.

**SOCIETAL VALUE OF
INCREASED EDUCATION**

SOCIETAL VALUE OF INCREASED EDUCATION

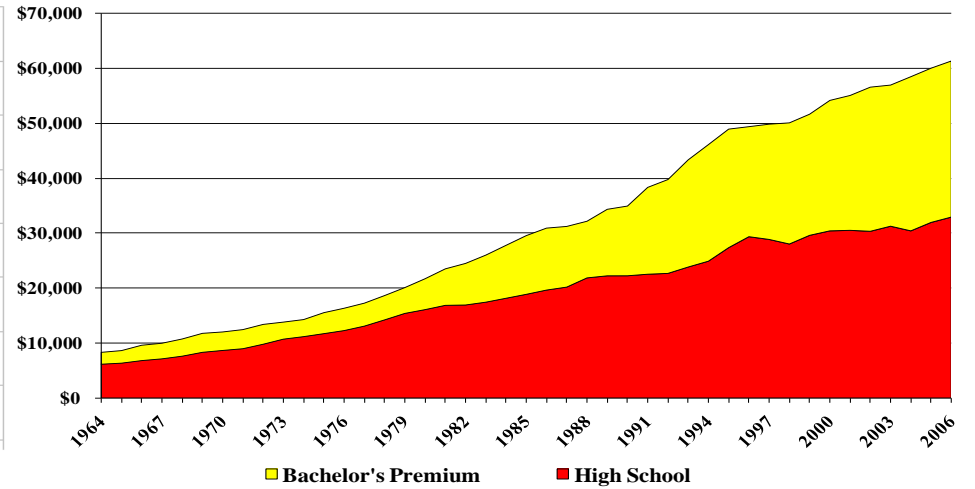

- ▶ Direct Benefits to Society
 - ▶ Those with a bachelors have a 40% lower unemployment rate.
 - ▶ Those with a bachelors have a decreased likelihood of participating in criminal activities and a lower incarceration rate.
 - ▶ Higher education levels correlate with a reduced reliance on welfare and public assistance, by as high as a factor of 10.
 - ▶ High school graduates are three times more likely to be living in poverty than college graduates.
 - ▶ The government spends between \$800 and \$2700 per year less on social programs for 30 year old college graduates than high school graduates.
 - ▶ Those with a bachelor's degree are healthier, less likely to be obese, have hypertension, diabetes or other chronic diseases.
- ▶ Other Benefits
 - ▶ College graduates are less likely to die in motor vehicle crashes.
 - ▶ College graduates are more likely to respond to alcohol treatment.
 - ▶ Higher education is correlated with greater charitable giving.
 - ▶ Those with bachelor degrees participate in volunteer activities at twice the rate of high school graduates.
 - ▶ Those with higher education levels get more physical check ups and regular exercise.
 - ▶ College graduates are more likely to be regular blood donors.
 - ▶ Those with a bachelor's degree are approximately 50% more likely to vote.
 - ▶ Households with a bachelor's degree or above account for 26.9% of the households, but pay 51.1% of the federal income taxes.
 - ▶ Using 2005 data, a person with a bachelor's degree in Illinois will pay back \$4.86 in State taxes for each dollar the State invests in higher education over their lifetime. This is up from \$3.66 for each dollar in 1980.
- ▶ Intergenerational Benefits
 - ▶ Low birth weight and infant mortality is more common among children born to less-educated mothers.
 - ▶ Child abuse and neglect are associated with parental education levels.
 - ▶ Children of more educated parents generally perform better in school and in the labor market.
 - ▶ High parental education is associated with lower criminal propensities in children.
 - ▶ High parental educational levels are associated with improved child health.
 - ▶ Children from a family with a parent holding a bachelor's degree are several times more likely to go to college than if neither parent attended college.

INSTITUTIONAL COMPARISONS

INSTITUTIONAL COMPARISONS

BIG TEN INSTITUTIONS

- ▶ Undergraduate general tuition and mandatory fee rates at the University of Illinois at Urbana-Champaign (UIUC) during 2007-08 are \$2,144 above the public Big Ten average.
- ▶ Undergraduate tuition and mandatory fees at UIUC ranked between fourth and fifth place among the public Big Ten institutions between 1998-99 and 2001-02. UIUC's ranking increased to third in 2002-03 when entering student rates increased by 16.5% and dropped to fifth in 2003-04 when rates for entering students increased by 4.6% compared to the 13.0% average increase among all other public Big Ten institutions. UIUC's rank increased to fourth place in 2004-05, third place in 2005-06 and 2006-07, and second place in 2007-08.
- ▶ Since 1998-99, UIUC residence hall rates and the average residence hall rates of the other Big Ten Universities have increased by an average of \$300 or 5% per annum. Comparison of residence hall rates is not as straight forward as that of tuition and fees because of differing meal plans and varying levels of service provided.

AAU PUBLIC INSTITUTIONS

- ▶ Between AY 2000 and AY 2008 UIUC has experienced a 133.3% change in undergraduate tuition and mandatory fees compared to the AAU average of 91.5%, ranking third among the thirty-four public AAU universities. Over the last year, the general 4-year guaranteed tuition and mandatory fees at UIUC increased by 12.6% compared to the overall public AAU average of 6.4%.
- ▶ In AY 2008 undergraduate tuition and mandatory fee rates at UIUC ranked 3/34, \$3,359 above the AAU mean.

PEER INSTITUTIONS

- ▶ The percent change in undergraduate tuition and mandatory fee rates at UIUC since AY 2000 is 133.3% for entering students ranking 2/21 among their IBHE peers. Rates in 2007-08 at UIUC increased 12.6% compared to an overall peer average of 5.7%. In AY 2008 UIUC ranks 13/21 in tuition and mandatory fees, \$12,655 below the mean. UIUC undergraduates will pay \$11,130 in general entering undergraduate tuition and mandatory fees in AY 2008, approximately one-third of the charges at the University of Chicago and Northwestern—two private institutions within the IBHE peer groups.
- ▶ Undergraduate tuition and fees for entering students at the Chicago campus (UIC) have increased 126.8% since AY 2000, placing them 1/22 among their IBHE peer group. Over the last year, rates increased by 8.2% ranking UIC 9/22 among their peers. In AY 2008, UIC tuition and mandatory fee rates are \$10,540, \$3,198 above the IBHE peer group mean.

- ▶ The Springfield campus (UIS) increased undergraduate entering tuition and fees by 11.8% over the last year ranking 1/15 among their peers. Tuition and fees at UIS are \$8,100 in AY 2008 ranking 6/15, \$6,364 below the mean.

ILLINOIS PUBLIC UNIVERSITIES

- ▶ As part of an overall reorganization of higher education in Illinois, effective January 1, 1995, the Board of Governors and the Board of Regents were dissolved. Individual Boards now govern seven of the eight institutions. The eighth institution, Sangamon State, became the University of Illinois at Springfield on July 1, 1995.
- ▶ By State statute all Illinois Public Universities beginning with the fall 2004 term, must guarantee tuition rates for four continuous academic years following initial enrollment in a degree program.

¹Rate reflect an increase in the U Pass, tuition and all other fees were not increased.

²Rate shown is for entering freshmen.

³Rate shown is for freshmen, sophomores and juniors.

⁴Rate shown is for all undergraduate students.

⁵Beginning in 2005-06 all full-time students are assessed a lower flat rate for tuition. Prior to 2005-06 tuition was calculated on a credit hour basis.

⁶Rates shown are for students entering after May 2001.

⁷Amounts shown reflect the 4-year guaranteed tuition rates for entering students.

⁸Amounts shown reflect rates for students enrolled for 15 credit hours per term.

STATE TAX SUPPORT

STATE TAX SUPPORT

- ▶ The University of Illinois has seen sharp fluctuations in State funding over the past 18 years. In FY 1990 the State provided strong support to the University as part of general tax increase actions; however, annual general tax appropriations fell below the prior year's level five times during this same period. Between FY 1995 and FY 2001, the University enjoyed a period of moderate and stable increases in tax support.
- ▶ In FY 2002 the University had a mid-year rescission of \$9.1 million and a redirection of \$24.9 million for health benefits, effectively a \$34 million reduction. The University experienced an additional \$40 million reduction in State tax support in FY 2003 and a \$58 million reduction in FY 2004, as well as mid-year rescissions in FY 2003 of \$29.0 million and \$12.3 million in FY 2004. State tax support for FY 2005 increased by \$1.55 million for legislative initiatives and decreased in FY 2006 by \$0.55 million due to the elimination of two legislative initiatives. Funding in FY 2007 increased by \$12.7 million which included \$10.1 million for compensation increases, \$2.4 million for additional legislative initiatives and a \$245 thousand transfer for CARLI. Funding increased by \$11.6 million in FY 2008 which included a \$13.3 million increase in base funding and a reduction of \$1.7 million in legislative initiatives.
- ▶ Inconsistent State support to the University makes long term fiscal planning difficult. The key variable in achieving moderate and predictable tuition increases is adequate and stable State tax support.
- ▶ The University is more dependent upon tuition revenue today than it was in FY 1998. A decade ago, State tax funds represented 74.7% of the University's total appropriated funds budget, and tuition revenue (income fund) represented 24.1% of the total. In FY 2008 general tax support dropped to 54.5% and tuition support has risen to 45.2%.
- ▶ The State spent approximately \$3,408 less per University of Illinois student in FY 2007 than it did in FY 1990 when accounting for the impact of inflation and for changes in the mix of students enrolled.
- ▶ In a one-year comparison from FY 2006 - FY 2007 Illinois ranked 26th in changes in tax appropriations for higher education among the fifty states. Over a ten-year period Illinois ranks 39th in changes in tax support.

FIGURE 5
GENERAL TAX APPROPRIATIONS
PERCENT GROWTH FY 1990 - FY 2008

Note: Normalized for changes in funding for UIH, Mental Health transfers and addition of UIS.
 FY02-FY08 reflect reduction for health insurance obligation.

INSTRUCTIONAL COSTS

INSTRUCTIONAL COSTS

- ▶ Illinois public universities annually participate in a Statewide "Cost Study" designed by the IBHE. The study apportions total appropriated fund expenditures to instruction, research and public service functions. Instructional costs for the University of Illinois at Urbana-Champaign, the University of Illinois at Chicago, and the University of Illinois at Springfield combined, on a full-time equivalent (FTE) student basis, have increased by 41.1% at the undergraduate level and 25.7% at the graduate level between FY 1998 and FY 2007. During the same period, the Higher Education Price Index, a measure of the cost of goods and services used in higher education, has increased by 40.9%.
- ▶ The Cost Study is a useful tool for comparing narrowly defined instructional costs among institutions. However, it is less well suited as a measure of total educational costs. Several significant measures of overall costs are omitted from the Cost Study. It does not include: faculty and staff retirement costs, health and other insurance benefits, institutional tuition waivers and scholarship assistance through the Illinois Student Assistance Commission (ISAC) and debt service on facilities.
- ▶ To provide a comprehensive measure for evaluating full instructional costs for education, these additional factors should be used in the calculation. IBHE Cost Study methodology calculates undergraduate instructional costs at the University to be \$9,053 in FY 2007. When full cost factors are incorporated into the calculation, instructional costs increase to \$15,145.
- ▶ When full instructional costs are utilized the University's undergraduate tuition moves from well outside the "1/3 of cost" benchmark frequently cited by the IBHE for tuition as a percent of instructional cost to nearer that historic benchmark (41.9%).

Instructional Costs per FTE Student	\$9,053	\$15,145
Tuition Paid Per FTE Student	\$7,395	\$6,347
Ratio	81.7%	41.9%

DIFFERENTIAL TUITION

DIFFERENTIAL TUITION

- ▶ The differential tuition rate between lower division and upper division undergraduates was established in 1981-82 at the Urbana-Champaign (UIUC) and Chicago (UIC) campuses and was eliminated in 1994-95. In 1988-89 a differential was established between undergraduates at UIC and undergraduates at UIUC. In 2004 a state law was passed that guarantees degree-seeking undergraduate students unchanged tuition rates for at least four consecutive years. In 2004-05, the first year of the guaranteed tuition program, UIUC moved from fifth to fourth place among the public Big Ten institutions. UIUC increased their ranking to third place in 2005-06 and retained that ranking until 2007-08 when they moved to second place, \$19 over the third ranked University of Michigan.
- ▶ The University established differential tuition rates for students enrolled in the College of Engineering and engineering curricula at UIUC and the College of Engineering at Chicago in 1992-93 to provide for academic program improvements. The initial tuition differentials of \$500 at UIUC and \$400 at UIC were phased in over a two-year period. In 2007-08 the engineering differentials for entering undergraduate students are \$3,792 at UIUC and \$1,642 at UIC; entering graduate engineering differential rates are \$3,430 at UIUC and \$1,900 at UIC.
- ▶ Beginning in 1993-94 UIUC students enrolled in Chemistry and Life Sciences and Architecture, Art and Music curricula were assessed differential tuition rates. These rates were phased-in over two years and the additional amounts were \$500 in Chemistry and Life Sciences, \$200 in Architecture, Art and Music at the undergraduate lower division student level, and \$400 at the undergraduate upper division and graduate student levels. The 2007-08 differential rates in Chemistry and Life Sciences curricula increased to \$3,792 for entering undergraduates and \$1,600 for entering graduates. Beginning in AY 2004 all students in the College of Fine and Applied Arts are charged an additional tuition rate and the differential between lower division and upper division undergraduates was phased-out over two years. Entering students in Fine and Applied Arts are assessed \$834 above the entering general rate for undergraduates and \$532 above the general graduate rate in 2007-08. In 2004-05, all UIUC undergraduate and graduate Business students, except those presently assessed a differential rate, e.g., the Master of Business Administration (MBA) program, are charged a differential tuition rate. Business rates are \$3,792 above the entering undergraduate general tuition rate and \$1,352 above the general graduate rate in 2007-08. In 2007-08 UIUC began two new differential rates in the College of Agricultural, Consumer and Environmental Sciences students that will be phased in over four years, \$1,000 per semester for the Department of Animal Sciences, the Department of Food Science and Human Nutrition, the Technical Systems Management Program in the Department of Agricultural and Biological Engineering, and \$500 per semester for the Department of Crop Sciences and the Department of Natural Resources and Environmental Sciences.
- ▶ UIC began undergraduate tuition differential rates for students in the College of Nursing and the College of Architecture and the Arts programs in 2004-05, \$430 above the undergraduate base rate. In 2007-08 the differential rates for entering students are \$1,752 for Nursing and \$1,000 for Architecture and the Arts. Beginning in 2006-07 entering undergraduate students enrolled in the College of Business Administration and the B.S. in Movement Sciences were assessed an additional \$500 above the base rate and the B.S. in Health

Information Management entering undergraduate students were assessed an additional \$1,000. The differential rates increased to \$548 in the College of Business Administration, \$630 for the B.S. in Movement Sciences and \$1,096 for the B.S. in Health Information Management during 2007-08. UIC began new differential tuition rates in 2007-08: undergraduate and graduate science programs in the College of Liberal Arts and Sciences, \$1,000 above the general base rate; the B.S. in Human Nutrition, \$630 above the general base rate; M.S. in Architecture in Health Design \$8,000 above the general graduate rate; and Master of Computing and Information Technology and the Master of Energy Engineering \$6,336 above the general graduate rate.

- ▶ The differential tuition between entering undergraduate and entering graduate students is decreasing. In 2003-04 the differences were \$628 at UIUC and \$750 at UIC. By 2007-08 the entering undergraduate tuition rate at UIUC surpassed the entering graduate rate by \$66. At UIC the entering graduate rate is \$336 higher than entering undergraduate rate in 2007-08. Graduate tuition and fees at UIUC ranked fourth among the public Big Ten institutions in 2007-08, \$886 ahead of fifth place Michigan State University.
- ▶ To expand and revitalize the academic program leading to the Master's of Business Administration, a special instruction fee was assessed Urbana-Champaign students in 1989-90 and Chicago students beginning in 1993-94. In 2007-08 MBA students will pay additional tuition of \$8,126 at UIUC and \$7,308 at UIC over general graduate rates. UIUC did not increase the MBA tuition rate in 2007-08 retaining their fourth place among the public Big Ten institutions when comparing tuition and mandatory fee rates, \$1,841 below the third ranked Ohio State University and \$6,124 below the second ranked University of Minnesota.
- ▶ Students enrolled in graduate Law programs began paying the professional program tuition rate in 1998-99.
- ▶ A differential tuition rate was enacted for Law in 1981-82, for the Doctor of Pharmacy in 1993-94 and for the Doctor of Physical Therapy in 2001-02. These were added to the differential professional rates already in place for Dentistry, Medicine and Veterinary Medicine. In 2007-08 UIC's Dentistry rates went from second to first with a 13.8% increase; Law went from fourth to third place ranking when comparing the entering rate increase of 27%; Medicine rates at UIC have ranked second among Big Ten Institutions since 2003-04; Pharmacy moved to first place with a 9.2% increase; and Veterinary Medicine retained their third place ranking.
- ▶ UIUC also offers "full cost recovery" programs, all costs are met through a combination of tuition and fee charges, in the Executive Master of Business Administration, Master of Science in Business Administration – Technology Management, Master of Science in Finance, Master of Science in Economics – Policy Economics, Master of Science in Accountancy and Master of Science in Accountancy - Tax.

¹AY 2002 - AY 2004 rates are for students entering after May 2001. The AY 2005 thru AY 2008 rates reflect the 4-year guaranteed base tuition assessment for entering students.

²The rates for AY 2006 - AY 2008 are weighted averages of new and continuing lower and upper division undergraduate rates.

³Rates for the College of Literature, Science and the Arts.

⁴AY 2003 - AY 2008 rates are for new students.

⁵In 1999, lower division undergraduates were assessed the same rate and the upper division undergraduate rate shown was for Liberal Arts and Sciences. Beginning in 2000, all undergraduates are assessed the same rate.

⁶AY 2004 - AY 2008 rates are for entering students.

FINANCIAL AID

FINANCIAL AID

- ▶ Students may receive financial aid from gift assistance, loans or employment. Approximately seven-tenths of the undergraduate students at Urbana-Champaign (UIUC) and Chicago (UIC) and two-thirds of the undergraduate students at Springfield (UIS) were recipients of some form of financial aid during FY 2007.
- ▶ The Federal Pell Grant program provides aid to meet educational and living costs beyond tuition and fees. The average award per recipient of such Federal grants in FY 2007, were \$2,757 at UIUC, \$2,777 at UIC and \$2,445 at UIS. In FY 2007, two-fifths of UIUC and over one-third of UIC undergraduate students received Federal Direct loans while over one-third of the undergraduate students at UIS received Federal Family Education Loan Program (FFELP) loans. These loan programs averaged \$7,898, \$6,338 and \$6,204, respectively, per student.
- ▶ The "State" scholarships or grants to undergraduate students represent primarily Illinois Student Assistance Commission (ISAC) awards which are based upon financial need and merit. The average ISAC need-based Monetary Award Program (MAP) grant in FY 2007 varied from \$4,070 at UIUC, \$3,848 at UIC and \$3,046 at UIS. Public four-year institutions received \$2.2 million more in MAP payouts than Private four-year institutions in FY 2006.
- ▶ The Monetary Award Program Plus (MAP Plus) legislation was signed by Governor Blagojevich in July 2006, effective for fall 2006. Eligible students are entitled to an annual \$500 in grant aid. In FY 2007, University of Illinois students received \$3M at the UIUC campus, \$1.1M at the UIC campus and \$191K at the UIS campus.
- ▶ Tuition and mandatory fee rates for undergraduate students at UIUC and UIC surpassed the maximum MAP award beginning in FY 1996, \$58 and \$74, respectively. By AY 2008 the gap between entering students and the maximum MAP award increased to \$6,162 at UIUC, \$5,572 at UIC and \$3,132 at UIS. Between FY 2000 and FY 2007 the University's need based institutional aid funding went from \$792K to \$24.2M primarily to help bridge the gap in State need based awards.
- ▶ In FY 2006, Illinois ranked eighth nationally in state spending for student aid, down from second place in FY 1999, according to statistics published by the National Association of State Student Grant and Aid Programs. During FY 2006 Illinois spent 13.6% of their higher education budget on need based student aid compared to the national median of 4.8%.
- ▶ When all forms of student assistance, except loans and employment, were compiled for undergraduates in the Fall 2006 term, only 41% of UIUC, 34% of UIC and 25% of UIS students paid full tuition and fees. The Fall 2006 amounts include the one-time MAP Plus awards. Mid-to-high income students are eligible for assistance in the forms of tax credits and educational savings.
- ▶ In Fall 1991, the General Assembly placed into law an Act to provide 50% tuition waivers for undergraduate education for children of employees of State-supported colleges and universities. In January 1998, this benefit became portable between Illinois Public Universities. In FY 2007, University of Illinois students received 973 children of employee waivers, 753 at UIUC, 184 at UIC and 36 at UIS.

TABLE 35
 UNIVERSITY OF ILLINOIS
 FINANCIAL AID "WHO PAYS" ANALYSIS
 UNDERGRADUATE STUDENT ASSISTANCE
 Fall 2006

Methodology:

- This analysis includes all forms of student assistance except loans and employment: Pell grants, ISAC awards, private scholarships, institutional awards, and grants, and tuition waivers. It includes both need-based and non need-based awards.
- Data are reported for full-time undergraduate students, those taking at least twelve semester credit hours.
- Tuition and mandatory fee rates include the actual assessed amounts for both in-state and out-of-state students.
- Full Costs exclude room and board charges.

Students who pay	Urbana-Champaign			Chicago			Springfield		
	Number	% of Total	Cumm. %	Number	% of Total	Cumm. %	Number	% of Total	Cumm. %
