# Student Data Book

## Fall 2018

## Introduction

The University of Illinois System is among the preeminent public university systems in the nation and strives constantly to sustain and enhance its quality in teaching, research, public service, healthcare, and economic development. The system is made up of three distinctive institutions located in Urbana-Champaign, Chicago, and Springfield. Combined they bring resources, capabilities, and drive that are greater than the sum of their parts – altogether extraordinary.

The System enrolls almost 86,000 students at its three institutions as well as online. The programs at the University are the most comprehensive in the State ranging from general undergraduate education to post-doctoral studies. The System produces just over 22,000 degrees annually and is the State's largest provider of science, engineering, and health related degrees at all levels; undergraduate, graduate, and professional.

The Student Data Book presents student characteristics as well as longitudinal trends. It is intended to serve as a ready reference on issues related to student enrollment and demographics at each institution and in total for the University of Illinois System. Data is presented according to state and federal reporting guidelines and definitions.
